

## Colorado Success Unlimited “College Connections”

The Colorado Success Unlimited (SUN) “College Connections” program is designed to help GED and high school graduates get ready for college.

“College Connections” is an eight-week course at NJC to help students improve their skills in reading, writing, math and critical thinking. The course includes instruction in college systems navigation and provides students with opportunities to interact with college staff, tour the campus, and explore career options.

Many students completing the course have experienced higher ACCUPLACER scores along with increased confidence to succeed in college.

**Let the Colorado Success Unlimited (SUN) “College Connections” program help you reach your goals!**

**HURRY!! Classes begin on January 23, 2009.**
