Colorado Flatlanders Car Club Scholarships

Freshman and Returning Sophomore Students

In 1992 Colorado Flatlander Car Club established a scholarship fund for vocational students interested in the field of automotive technology.

The Colorado Flatlanders Car Club scholarships go to entering freshmen students or continuing sophomore students who are planning a career in automotive technology and are graduates of Northeastern Colorado high schools (or also non-traditional aged students with high school diplomas or GEDs) in the six counties of Logan, Morgan, Phillips, Sedgwick, Washington, and Yuma. **If, however, the six counties do not supply the Club with sufficiently qualified applicants, the selection committee will consider applications from outside the six counties.**

The scholarship fund provides two $500.00 scholarships - $250.00 per semester during the first year and is renewable. There is no formal application form for this scholarship, but you must submit a high school transcript, a letter of resume stating vocational motivation and specific aspects of financial need by March 1st of the current year to:

Scholarship Committee
Colorado Flatlanders Car Club
P.O. Box 248
Sterling, CO 80751

You may also include letters of reference from your high school teachers or from your employers or others who know of your character and work habits.

The scholarship is renewable for second-year students with a 2.75 cumulative GPA.

Selection of recipients will be made by the Colorado Flatlanders Car Club Scholarship Committee on the basis of character, need, scholastic interest, and participation in school affairs. Award letters will be mailed to recipients. To accept the scholarship the recipient must take a copy of his/her award letter to the NJC Financial Aid Office by July 15 of the current year.

After the initial award, in order to receive subsequent semester's awards, recipients must provide at the end of each semester the following to the Colorado Flatlanders Car Club:

A. An official transcript from the Records Office showing a minimum 2.75 GPA.
B. A letter from your Auto Tech instructor indicating his satisfaction with your progress.
C. A letter from you indicating your continued vocational motivation and financial need.
