Introduction

This fact book provides various student data for the thirteen colleges of the Colorado Community College System (CCCS). It is intended to be a one-stop resource for information. The Office of Institutional Research at the system office produces this report. Additional information about some of the subjects in this document, as well as previous years' fact books, can be found at <https://www.cccs.edu/about-cccs/institutional-research/>.

The data in this report are in tabular and/or graphic format. Data are from the Colorado Student Unit Record Data System (SURDS) or other data reported to the Colorado Department of Higher Education (CDHE), the federal Integrated Postsecondary Education Data System (IPEDS), or the National Student Clearinghouse (NSC). As SURDS and other reports submitted to CDHE are the predominant sources of data, a data source is indicated only if they are not the data source.

A Glossary of Terms is also included at the end of the document that provides additional descriptions and definitions to assist the reader.

Colleges and universities enrolling about 98 percent of students in higher education institutions participate in the National Student Clearinghouse. In Colorado, the institutions with 1,000 or more students that do not report attendance and completion data to the Clearinghouse are American Sentinel University, Westwood College Denver North, Heritage College – Denver, and Concorde Career Institute – Denver.

| CCCS | 67.6% | 69.5% | 68.2% | 69.4% | 70.0% |

Note: Course completion is defined as receiving a passing grade — an A, B, C, or Satisfactory — at the end of the term. The cohort for determining the rates is the sum of the passing and failing grades. College composition and reading (CCR) was introduced in a limited fashion in 2013-14 and replaced most reading and English developmental courses in 2014-15. The “CCR/English/Reading” line consolidates the three courses prior to 2015-16 to aid in comparison across years.
