*"Being a life-long, avid lover of horses, I made the choice to pursue a career in the field. For a long time, my number one choice for college was CSU but those dreams were soon put to the test when I reviewed the estimated cost. I soon got in touch with a friend who had been attending NJC as part of the equine program. I quickly fell in love with the hands-on equine management program, small campus, and economical price tag. Here I am, happier than ever as a student at NJC!"*
