**Space+Reading+Crafts= FUN**

Come learn all about the planets! This course will focus on two things: learning reading strategies that will help your young student become a better reader, and creating crafts that will provide a fun, interactive way to remember the facts that they learn about. Instructor is Jenny Smock.

**Monday June 16 thru Tuesday June 17**  
**12:30pm-2:00pm**  
**Grades K, 1, 2**  
**Cost ~ \$30**

**Tennis Anyone?**

Like swimming and golf, tennis is a sport you can learn when you're young and play it the rest of your life. You will start with a few basic lessons about how to hold and swing the racquet, how to position the feet and a little about the rules. You will leave with the ability to hit the ball over the net with some confidence and the desire to play and practice tennis. Instructor is Adam Kunkel.

**Monday June 16 thru Thursday June 19**  
**Grades K, 1, 2** 8:30am-9:15am  
**Grades 3, 4** 9:30am-10:30am  
**Grades 5, 6, 7, 8** 10:30am-11:30am  
**Cost ~ \$30**

## The Basic Science of Animals

This course will be an introduction to the inner workings of mammals! We will compare size and function of hearts, brains, and stomachs of humans, pigs, sheep, and cows. There will also be a lesson on embryology. Loads of fun and learning!! This program is made possible through a partnership with CSU Extension. Instructor is Megan Jedlicka.

**Tuesday June 24 thru Thursday June 26**

**Grades 3, 4, 5**

**9:00am—10:30am**

**Cost ~ \$30**

## Vet Science

Humans, dogs, pigs, cows, and many others are all mammals. Have you ever wondered why all mammals are so different? Have you ever wondered how animals function differently than humans? If so, this is the course for you! We will dive into the inner workings of the heart, stomach, and reproductive tract of various animals and compare them to humans. This program is made possible through a partnership with CSU Extension. Instructor is Megan Jedlicka.

**Tuesday June 24 thru Thursday June 26**

**Grades 6, 7, 8 10:45am-12:15pm**

**Cost ~ \$30**

## Cupcake Creations

It's time for tasty decorating! Learn how to frost and decorate fun summer time cupcakes. Each day students will learn how to

make different designs on cupcakes.

Instructor is Angela Anderson.

**Wednesday June 25 and Thursday June 26**

**Grades 4, 5, 6 12:30pm-1:30pm**

**Cost ~ \$30**

## Cooking 101

**Grades 5, 6, 7, 8**

**1:00pm—4:00pm**

**Cost ~ \$25**

## Lego Robotics

Come learn about robots and robotic programming. You will easily learn the basics of programming by solving problems using things such as sound, light, and pressure sensors. Extremely fun and hands-on.

Instructor is Kelsey Yearick.

**Tuesday July 8 and Wednesday July 9**

**Grades 3,4,5,6**

**8:00am-11:00am**

**Cost ~ \$30**

## CSI Investigators

Want to do a criminal investigation? What about exploring and evaluating a crime scene? Join in and learn about forensic anthropology, by doing a mock criminal investigation.

Students will step onto the crime scene and dig up evidence. Instructor is Jeff Schiel.

**Monday July 14 thru Wednesday July 16**

**Grades 4, 5, 6**

**9:00am—10:30am**

**Cost ~ \$30**

**Monday July 21 thru Wednesday July 23**

**Grades 7, 8**

**9:00am—10:30am**

**Cost ~ \$30**

## Overland Trail Museum 101: Behind the Scenes

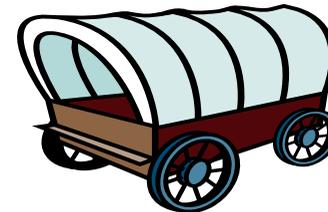

Join us for a behind-the scenes look at how the museum operates. The day's events will kick off with a brief "staff meeting," complete with some breakfast pastries. We will go behind the scenes and perform some of the daily tasks that keep the museum running smoothly. From unlocking the numerous museum buildings and turning on lights at the start of the day to periodically monitoring the museum cameras, documenting donated items, operating the cash register and much more. Program and event planning are vital components of the museum operations, so participants will also try out some of the museum's unique attractions that are used during various programs, including the gold panning creek and the archaeology pit. The day's activities will conclude with the participants designing their own historically themed children's program.

**Thursday July 17**

**8:00am—11:30am**

**Grades 2, 3, 4**

**Cost ~ \$5**

## Learn to Draw Animals

Animals come in many shapes and sizes, let's learn to draw them! We will look at some practical solutions for drawing all kinds of animals. We can study how they live, how they are built, and what makes them interesting. The strategies for drawing all animals is approximately the same, by practicing under the watchful eye of an instructor you can learn to improve your animal drawings. Let's draw animals! Instructor is Dave Wagner.

**Monday July 28 thru Wednesday July 30**

**Grades 5,6,7,8**

**8:00am-9:30pm**

**Cost ~ \$30**

## Learn to Draw Cartoons

We all love cartoons! We like cartoons on TV, cartoons in the newspaper, and cartoons on the internet. Cartoons are simple drawing which can express a lot, and help us to enjoy stories. We will look at

how cartoons are drawn by the experts and what we can do to make our own. Everybody has stories to tell and drawing cartoons is a lot of fun. Join us as we explore the world of cartoons! Instructor is Dave Wagner.

**Monday July 28 thru Wednesday July 30**

**Grades 3, 4, 5**

**10:00am-11:30am**

**Cost ~ \$30**

## Learn to Draw Fantasy

What is the wildest thing your imagination can come up with? What creatures do you think you can invent? Are there fantastical landscapes you're interested in drawing? Let your mind run wild as we explore fantasy art. From sci-fi to steam punk, video games and comic books – learn the basics on how to create these worlds. Instructor is Dave Wagner.

**Monday July 28 thru Wednesday July 30**

**Grades 5, 6, 7, 8**

**12:30pm-2:00pm**

**Cost ~ \$30**
